## Technical Memo T53

Re: 05G01.10

To Customers of the Premier Cobb Grill  
From The GarrettWade Technical Department

### **Cobb America notifies customers of hazards of Charcoal Grills and clarifies marketing materials.**

In cooperation with the U.S. Consumer Product Safety Commission (CPSC), Cobb Depot Inc D/B/A Cobb America is making a voluntary product safety announcement. This affects all Cobb Charcoal Grills distributed within the United States, including the Premier Cobb you have purchased from GarrettWade.

#### **Please Be Advised**

The copy on certain websites, in the cook book and visuals in a promotional video create the impression that the Cobb can be used indoors. This is false. The Cobb Cooker is a charcoal grill, and as with all charcoal grills, it emits carbon monoxide. Carbon monoxide is a dangerous gas, which can kill you within minutes.

**The Cobb can never, under any circumstances, be used indoors, inside vehicles, inside RVs or in any enclosed areas.**

For more information please contact Cobb America at 954.427.5202 or by e-mail at [chris@cobbamerica.com](mailto:chris@cobbamerica.com).
