## Technical Memo T38

Re: 62J01.01 62J01.03

To: Customers of the Gap Filling Glue  
From: Garrett Wade Customer Service

The Garrett Wade 202GF Glue you have ordered is probably the finest PVA water-based woodworking glue available. Its' high strength, good workability, superb clean-up properties and "loose joint" gap filling ability make it unique.

Because of the glue's high content of solids, you may notice the glue appears "streaky" from time to time, due to solids starting to separate. This has absolutely no effect on the glue's properties and should be of no concern.

To remove the appearance of streaks, simply roll or turn the bottle gently to "re-mix" the contents.
