## Technical Memo T63

Re: 05RO3.10 05R03.99

To: Customers of the 25 Piece Brad Point Drill Bit Set  
From: The Garrett Wade Technical Department

Our most recent shipment of the 25 Piece Brad Point Drill Bit Set arrived without the larger bit diameters reduced to fit a 3/8" chuck, as described in the catalog. We immediately ordered properly sized replacement bits for the larger sizes in the set – 25/64", 13/32", 27/64", 7/16", 29/64", 15/32", 31/64" and 1/2".

These sizes make up the component set 05R03.99 of reduced shank bits pictured above. These bits will fit a 3/8" chuck, as advertized. The bits without the reduced shanks that originally were included in the set are a bonus you can keep with our compliments.

We apologize for any confusion or inconvenience.
